### **Consume whole grains, lean meats, & fresh vegetables.**

Quality foods replace the need for quantity control (to a great degree). It is best to combine a complex carbohydrate with a lean protein and a healthy fat at each meal. They are a team and work best together.

### **Drink 11 to 15 cups of water daily.**

A result of the healthy choices you are making is going to be natural weight loss (if needed) and water will help flush your body of all toxins it is trying to shed. Bonus: water helps with glowing skin and keeps energy levels high!
